## CABINET DISCUSSES THE COAL STRIKE; GARFIELD TO ACT

### SPEEDY BALLOTING INDICATES RECORD SHATTERING VOTE AND EARLY COUNT

Despite the Rain, Voters Hurry to Polls to Cast Their Ballots.

### MERGER ELECTION IS WITHOUT INCIDENT

Many of Boxes Already Have Cast Two-Thirds of Their Vote.

With both sides claiming to lead, 458 votes had been cast in Albany and 153 in Decatur at noon today. The vote at that time in the various boxes follows:

Albany—First ward	37
Second ward	188
Third ward	78
Fourth ward	153
Decatur—City hall	49
Courthouse	104

The rain, which fell during the early hours today, failed to dampen the order of the voters of Albany and Decatur and indications were at noon that the largest vote in the history of either of the municipalities would be polled on the consolidation issue.

Many of the boxes reported at noon that two thirds of the number of ballots ordinarily cast in a municipal election already had been voted, indicating a phenomenal vote for the day and an early count of the result.

The state election laws, which prevent any campaigning on the day of the election, caused a conspicuous absence of activity today. The election is passing quietly and already the public appears relieved at the lessening of the strain under which the cities have been for two weeks.

There was no display today of the many cards, banners, circulars and the proverbial "taxi for voters," which have been features of former political fights, before the passage of the new election laws. The rain prevented any congregation on the streets, which appeared almost deserted, with the exception of a hurrying voter, here and there, on his way to the polls.

### TO THE PUBLIC:

We desire to state that the circular distributed on the street last night calling attention to the fact that unfair literature had been used by the anti-consolidationists was authorized and issued by the Albany-Decatur Typographical Union No. 803, and that the Albany-Decatur Daily was in no way responsible for it. This was merely an incident in our fight for recognition of the union label, which stands for higher wages, better working conditions and improved opportunities for those of our craft, and had the consolidationists patronized shops that we hold to be unfair, we would not have hesitated to make this fact public. Our local keeps fully informed as to all printed matter used in the Twin Cities, and expects the co-operation of all other labor bodies in our campaign to popularize the use of union-made products.

ALBANY-DECATUR  
TYPOGRAPHICAL UNION  
Frank L. Inman, Pres.  
T. Carl Wilkinson, Secy.

### CALLING MEETING

There will be a called meeting of Rising Sun Lodge No. 29, A. F. & A. M., tonight at 7 o'clock at K. of P. Hall, Decatur, for work in the E. A. degree. All Masons cordially invited.  
W. R. McCluskey, W. M.

### NATIONAL COMMITTEE OF LABOR PARTY WILL BE FIFTY-FIFTY

To Be Composed of An Equal Number of Men and Women.

(International News Service.) CHICAGO, Nov. 25.—A national committee to be made up of two representatives—one man and one woman from each state of the union—was decided on at today's session of the national labor party, now in conference here. An effort to fix representation so that it would be most num-

### HISTORIC NIGHT BRINGS END OF CONSOLIDATION CAMPAIGN IN ALBANY AND DECATUR

Pros and Antis Parade Through Streets and Stage Their Final Appeals to the Voters. Friends of Merger "Bury the Hatchet" While Antis Slam the Lynne Bill

### Extra Will Tell Story of Election

Complete returns of the consolidation election will be published in an extra to be issued by the Albany-Decatur Daily as soon as the votes are tabulated in the six boxes. The polls will close in Decatur at 5 o'clock and in Albany at 6 o'clock. As soon afterward as the ballots are tabulated by the election officials, the extra will be placed on the streets, probably about 6:30 o'clock.

### JENKINS CASE MAY BE ADJUSTED SOON

MEXICO IS KEEPING CLOSELY IN TOUCH WITH U. S. SENTIMENT.

(International News Service.) WASHINGTON, Nov. 25.—The Mexican situation involving the Jenkins case and other affronts to the U. S. was the subject of a lengthy discussion in the cabinet today. Secretary of State Lansing laid before the members the latest information which has come to the department in the situation. The secretary, after the meeting, declined to discuss what had transpired or to state whether a definite policy was formed. Wm. O. Jenkins, the American consular official, is still incarcerated in a Mexican penitentiary and his health is said to be suffering from the confinement.

(International News Service.) WASHINGTON, Nov. 25.—The Mexican government is keeping closely in touch with the sentiment with regard to the Jenkins case, it was learned at the Mexican embassy today. Ambassador Bonillas stated that he had exchanged several communications with his government relative to the case, but none was of any importance. The ambassador was still confident that a satisfactory settlement of the case will be reached shortly. The Mexican embassy here is preparing to release a statement on the Jenkins case published in La Tribuna, which tends to show that Jenkins was partly responsible for his own abduction.

COURT MARTIAL PROCEEDS (International News Service.) WASHINGTON, Nov. 25.—The court martial of Felipe Angeles, Villista, leader captured by the Carranza forces, is proceeding strictly according to law, according to advices to the Mexican embassy today from the governor of Chihuahua.

### Huns May Receive Nation League Bid

(International News Service.) LONDON, Nov. 25.—It was stated at the foreign office today that nothing was known of a report from Paris that Germany might be invited to enter the league of nations forthwith, to effect America's rejection of the peace treaty. Lord Robert Cecil, the foreign office official who directed England's negotiations regarding the league of nations at the peace conference, is absent from London.

### Decatur Meets St. Bernard Squad Thanksgiving Day

The Decatur Athletic club will go to Cullman Thursday to meet the fast St. Bernard team in a Thanksgiving Day battle. The locals have been preparing for the contest more than a week and the team is said to be in good condition. Decatur A. C. was defeated here by St. Bernard earlier in the season.

### CHAPTER TO MEET

Decatur Chapter No. 38, R. A. M., will meet tonight at 7:30 o'clock in special convocation. All Royal Arch Masons are invited to attend.

Two big demonstrations last night marked the close of the consolidation campaign in the Twin Cities. One of these was staged by the antis at the Masonic theatre and the other by the pros at the corner of Second Avenue and Johnston street. Both assemblages were preceded by parades, led by bands. Thousands of persons turned out, and it was apparent that both causes were strongly supported.

The anti parade was led by the local band and that of the consolidationists by the Boy's Industrial School Band, of Birmingham. The latter, during the evening, played many selections, the music interspersing the oratory. The only disorder of the evening occurred when the anti-merger meeting at the Masonic broke up about 9:30 o'clock and many of those who had been attending it attempted to cry down the speakers at the rival meeting. Probably two hundred men and boys took part in the yelling, which continued until the pro meeting was adjourned shortly before 11 o'clock. Every speaker who mounted the improvised rostrum after the appearance of the antis was greeted by a pandemonium of noise, and few were able to make their voices carry for more than a few feet. Dauntless and determined, the advocates of a greater city continued their addresses, some of them denouncing the interruption in scathing terms. For a while trouble seemed imminent, but the consolidationists as a whole kept themselves well in check and thus averted physical clashes.

Many Speakers Heard Probably a score of persons addressed the meeting of the consolidationists, including some of the leading business, professional and working men of the two cities. The speaking also developed a new woman orator, Mrs. Vera Austelle making the hit of the evening in a short but witty speech in which she came out strongly and boldly for a united municipality. She spoke calmly and with unusual poise, and her voice carried far into the monster crowd.

J. J. Kuhn, campaign manager, was the master of ceremonies. Among the speakers whom he introduced were the following: Mrs. Austelle, Melvin Hutson, E. M. Johns, David D. Gibson, H. K. Laatsch, E. W. Godbey, S. A. Lynne, T. M. Dix, Dr. M. W. Murray, Judge Wm. E. Skeggs, J. H. Odlin, A. G. Patterson, C. E. Price, J. L. Echols, Otto Meekes, W. M. Chenaault, H. L. Spencer, T. A. Bowles.

Band Music Highly Appreciated The music of the Boys' Industrial School band was greatly appreciated by the large audience, selections being played at the close of most of the speeches. The band led the joint parade as it marched up Second avenue, after the impressive ceremonies held at the foot of Second avenue, of "burying the hatchet," or to be exact the ceremony of burying two hatchets over the condemned hatchets, the first by Rev. Walter P. McGowan of Albany, and the second by Rev. J. Bernard Tallent, of Decatur. The instruments, symbolic of prejudice and near hate, were condemned to a grave from which there should never be a resurrection day, according to the speakers and the apparent sentiment of the large funeral audience.

Antis Close Campaign The anti consolidationists ended their campaign with a rousing mass meeting in the Masonic theatre last night when addresses were delivered by a number of prominent residents of Albany. Among the speakers were: Tull Worley, D. C. Almon, B. L. Malone, Tennis Tidwell, Rev. L. F. Goodwin, Judge John C. Eyster, S. L. Cook. The meeting was presided over by A. A. Hardage, chairman of the anti-consolidation campaign in Albany. The addresses were interspersed with a number of songs led by B. B. Pickens.

The auditorium and stage were crowded when the meeting was called to order, a large number standing in the rear. The speakers found the large audience readily responsive and were

### NEW AGREEMENT IS MADE BY HINES WITH RAILWAY SHOP TRACK LABORERS

Men Are Granted an Eight-Hour Day and Time and Half Overtime.

400,000 EMPLOYEES AFFECTED BY SCALE

While All Demands Were Not Granted, Substantial Concessions Made.

(International News Service.) WASHINGTON, Nov. 25.—An eight-hour basic day for track laborers and others of that classification, with time and a half for overtime, is provided in the new wage agreement entered into between Walker D. Hines, director general of railroads, and the Brotherhood of Maintenance of Way Employees and railway shop laborers, here late yesterday. The demands of the unions were not fully met, although large concessions were made by the railroad administration.

Signing of the new document by Director-General Hines ended negotiations which have been in progress since February. Approximately 400,000 men are affected, Railroad Administration officials estimated. The contract also provides that it shall be applicable during the period of Federal control of the railroads, unless notice of thirty days is given of its cancellation.

"Specifically," as announced by Mr. Hines says, "the new contract provides for overtime for regular section laborers and other employees in this classification except laborers in extra or floating gangs, whose employment is seasonal and temporary in character, and certain employees whose positions do not require continuous manual labor will be paid on the basis of time and a half after the eighth hour of continuous service, exclusive of the meal period, thus applying the same principle which was established last year for important classes of workers."

Heretofore such maintenance employees have been paid overtime at pro rata rates for the ninth and tenth hours and time and a half after the tenth hour. Under the agreement, laborers in extra or floating gangs, whose employment is seasonal or temporary in character, will be paid overtime at a pro rata rate for the ninth and tenth hours and time and a half after the tenth hour, whereas employees holding positions not requiring continuous manual labor, such as track, bridge and highway crossing watchmen, signalmen at railway non-interlocked crossings, lampmen, engine watchmen at isolated points, and pumpmen, will continue to be paid for their present hours of work a monthly rate equal to their present pay.

### W. M. BROWN DIES TO BE BURIED HERE

James Brown this afternoon received news of the death of his brother, W. M. Brown last night at Johns Hopkins hospital. The body will be brought here for interment and funeral arrangements are being made. Mr. Brown has resided in Albany some time and had a host of friends who will be shocked to learn of his death.

### Decatur Meets St. Bernard Squad Thanksgiving Day

The Decatur Athletic club will go to Cullman Thursday to meet the fast St. Bernard team in a Thanksgiving Day battle. The locals have been preparing for the contest more than a week and the team is said to be in good condition. Decatur A. C. was defeated here by St. Bernard earlier in the season.

### CHAPTER TO MEET

Decatur Chapter No. 38, R. A. M., will meet tonight at 7:30 o'clock in special convocation. All Royal Arch Masons are invited to attend.

### GENERAL PERSHING WILL VISIT NORTH ALABAMA IN DECEMBER

Former Commander of Expeditionary Forces Will Inspect Muscle Shoals.

General John J. Pershing, former commander-in-chief of the American Expeditionary force in France, will visit Sheffield early in December, according to a letter received by the Sheffield-Muscle Shoals club. General Pershing is expected to inspect the government work at Sheffield and on the Tennessee river. His visit is the result of a cordial invitation extended to him by the Sheffield-Muscle Shoals club.

Plans now are being arranged for his entertainment during his visit to North Alabama and it is expected he will pay a short visit to Albany-Decatur during his stay in this section. Congressman Edward B. Almon, on his arrival at Tusculum, delivered a personal letter from General Pershing, accepting the Sheffield commercial club's invitation. A letter from Senator Oscar W. Underwood also told of the General's expected visit.

### SUGAR SITUATION WILL IMPROVE BY FIRST OF JANUARY

Local jobbers have been advised that orders for granulated sugar will now be booked by the refineries for January or February delivery at 12 1/2 cents per pound, f. o. b. New Orleans, which they state inspires the belief that sugar conditions will improve after the first of next year. Louisiana planters are at present receiving 17 cents a pound.

The shortage is expected to continue through November and December, with only occasional shipments being received.

Statement of United States Sugar Equalization Board, Inc., 111 Wall Street, New York City:

For the week ending last Saturday, November 8, refiners received from Cuba and Porto Rico 79,647,680 lbs. of raw sugar and melted 97,415,360 lbs. in the same week. Of this amount 13,720,000 lbs were sent by the Royal Commission, out of their share of the Cuban crop, to be refined here. Allowing for minor exports, there was left a balance of about 80,000,000 lbs, refined for domestic consumption, for the week, or about 2 lbs for each of the 40,000,000 persons living in the Eastern part of the United States, who depends upon the eastern refineries for his supply of sugar. This is on the basis of about 104 lbs. per year, which is considerably above the normal per capita consumption in the United States of 33 lbs.

As further evidence of our abnormally large sugar consumption, it is interesting to note that the 105,000,000 people of the United States consumed as much sugar in the year from Sept. 1, 1918 to Sept. 1, 1919, as the combined consumption of the 200,000,000 people of the United Kingdom, France, Italy, Belgium, Holland and Germany. We have consumed one-quarter of the world's production and one-half of the world's total exportable surplus, but our sugar tooth is apparently far from satisfied.

In spite of our large demand and the world shortage, the price of sugar has been kept in the United States far below the world level. Government control of sugar in the United States has saved the people of the United States at least \$250,000,000 on their 1919 sugar bill.

### FRISCO IS ROCKED BY EARTHQUAKE

(International News Service.) SAN FRANCISCO, Nov. 25.—Portions of San Francisco were shaken for half a minute this morning by an earthquake. No damage was reported, though sleeper were jarred from their beds. The quake occurred at 3:04 a. m.

Officials of the government weather bureau here declared that the city of San Francisco was barely on the edge of the quake.

### PUBLISHERS AGREE TO REDUCTION OF PAPER; ALSO WILL RAISE THEIR RATES

Ten Per Cent Less News Print to Be Used During Next Year.

### WEEKLY REPORT TO BE MADE SECRETARY

Crisis Due to Paper Famine Calls For Most Drastic Steps.

(International News Service.) BIRMINGHAM, Nov. 25.—The southern newspaper publisher's association today agreed to a straight reduction of 10 per cent in the consumption of news print paper for the remainder of the year 1919 and to extend through the year 1920. The reduction is to be based upon the average consumption for the months of July, August, September and October, 1919. It was also agreed to reduce the number of editions published and to increase subscription and advertising rates. A weekly report is to be made by each publisher to the secretary of the Southern Newspaper Association, showing in detail the amount of paper used during the week and the amount which has been conserved. It was decided to edit news copy more carefully and to cut down on the size of the stories, rather than to eliminate entirely any important matter.

There was no purpose upon the part of the publishers to seek increased profits through higher advertising and subscription rates, but every point of discussion was upon the single basis of conserving white paper.

The seriousness of the situation was evident when publishers from the smaller cities admitted that unless there was prompt action along lines of rigid conservation by the larger newspapers they would be forced to suspend within a few months.

Pioneer publishers, like Maj. E. B. Stahlman and Col. Louis J. Wortham warned the conference that never in the history of southern newspaper had there been a more critical situation, one threatening the very existence of the smaller daily publications. A set of resolutions had been presented by Mr. Stewart and it was around these that the argument waxed fast and thick. And it was after long and detailed discussion that these resolutions and amendment were given over to a special committee for consideration and report.

The print paper manufacturers were represented by T. M. Marshall of the Great Northern Paper company of New York, who explained the shortage conditions which they were struggling to meet. He told of dire urgency of conservation.

Shirley Olympus of the Hears chain of newspapers was asked to give a resume of the situation in New York and what the publishers there actually were doing to combat with the emergency.

Small Town to Metropolis The range of discussion was from the publishers of the smallest daily to that of the larger publications. From small towns to southern metropolis the situation was disclosed in detail before the conference.

M. E. Foster, general manager of the Houston Chronicle, told the publishers that a 10 per cent saving in the use of white paper must prevail for at least four months of the coming year by every daily in the south. It was generally admitted that the problem was complex, tangled and would be extremely difficult to find a general solution but conservation was absolutely compulsory and the ways and means must be found before adjournment of the conference.

Elimination of noon editions by the afternoon papers was considered pro and con. Smashing traditions by using a part of the editorial page for advertising was urged by Mr. Gaylord.

### M'ADOO'S EFFORT TO KEEP PRICES DOWN FAILED TO PLEASE THE COAL OPERATORS

Statement by Former Secretary of Treasury Brings Retort From Brewster.

### DR. HARRY GARFIELD TO HANDLE AFFAIRS

Fuel Administrator Will be Given Enlarged Powers to Meet Crisis.

(International News Service.) WASHINGTON, Nov. 25.—The cabinet spent three hours today discussing the coal situation and failed to agree on any proposition for settlement of the wage controversy.

"It isn't settled yet. We will meet again at 3:30," said Secretary of Labor Wilson, leaving the meeting. Dr. Garfield, fuel administrator, and Attorney General Palmer both stated the discussion had not yet reached a stage of settlement and refused to make a statement. It is understood the cabinet was engaged in a lengthy debate over the wage increase and the part the public should bear. Both Attorney General Palmer and Dr. Garfield insisted the burden should not be placed on the public.

Representatives of the operators declared that if the cabinet fails to act they would withdraw from the conference and return to their homes and would post notices offering their workers an increase of 15 cents a ton for miners and \$1.00 a day for day laborers. They refused to treat further with the miner's officials until the men return to work.

McADOO WANTS PROOF (International News Service.) NEW YORK, Nov. 25.—The statement of Thomas Brewster, head of the coal operators, that Wm. G. McAdoo had been unfair in his criticism of the operators was read with interest at Mr. McAdoo's office today.

"Let the government publish the tax returns showing the operator's profits. It will show which of us is rich," it was stated.

No comment was forthcoming regarding Brewster's suggestion that McAdoo's statement was for political purposes.

### OPERATORS DISPLEASED

(International News Service.) WASHINGTON, Nov. 25.—Coal operators are not at all pleased today with the statement made by Wm. G. McAdoo yesterday to the effect that they have made excessive profits.

Thomas Brewster, chairman of the operator's wage scale committee, meeting here today, said: "We wish the government would follow Mr. McAdoo's proposal and publish the income tax returns of the coal operators. It might help us in the present struggle."

Brewster admitted that in the first six months of 1917, bituminous coal prices were profitable to some operators whose holdings were in the eastern field.

"This was stopped when the fuel administration was created and the government fixed prices," said Brewster. "After the armistice there was a great decrease in demand and prices fell below the government-fixed prices. The prices have remained down up to the present crisis, except in a few fields, where consumers have voluntarily bid the prices up."

Brewster stated that the McAdoo statement might have been made for political purposes, and said that it "was for mischievous intent, or for the purpose of winning favor in some quarters."

### GARFIELD IN CHARGE

(International News Service.) WASHINGTON, Nov. 25.—President Wilson's cabinet will turn the coal situation over entirely to Dr. Garfield, fuel administrator. This opinion was expressed today by Attorney General Palmer, as the cabinet convened. Mr. Palmer said he believed the cabinet would endorse a proposition supporting Dr. Garfield and giving him power to determine the prices of coal and the increases that could be granted to miners.

The miners and operators both awaited action by the cabinet.

**VOTE FOR THE GOOD ROADS BOND ISSUE**

## McADOO'S REVELATIONS REGARDING COAL BARONS

William G. McAdoo, former secretary of the treasury, has come to the front as the champion of the public in the settlement of the coal strike. Because of his official connection with the government during 1917, Mr. McAdoo has certain inside information regarding the profits of the coal barons that he has made public, in a protest against shunting on to the consumer the cost of raise wages for which the miners have asked, and to which they seem entitled.

He stated: I am convinced that the wage increases proposed for the mine workers are just and reasonable. Before deduction of excess profits taxes—which were less in 1917 than now—these income tax returns showed that earnings of 100 to 300 per cent on capital stock were not uncommon.

The public long since had reached the conclusion that the coal operators were quick to take advantage of conditions produced by the war for their personal enrichment. Mr. McAdoo has accused them of profiteering, and has produced the evidence to support his claim. Since the signing of the armistice there is little reason to doubt that the coal barons have continued to grow rich at the expense of the public, and Mr. McAdoo's suggestions that their income tax returns for 1918 be made public is one that will be universally endorsed.

Strikes will be in vain and will get nowhere if capitalists of this class are allowed to grant niggardly wage increases and then charge these increases up to the public, with interest.

## BUY CHRISTMAS SEALS AND HELP FIGHT A GREAT MENACE

(Anniston Star.)

On every present given in the United States this Christmas should be one or more of the little Red Cross Christmas seals. These tiny seals represent a great benevolence. By buying them at a mere pittance one aids in carrying relief to countless sufferers in our home land—tuberculosis victims, many of them destitute.

Every year the Red Cross sells the Christmas seals and uses the proceeds of the sale in the fight against tuberculosis. No better use could be made of money than in a campaign of this character. The great white plague is a National menace, probably the greatest we have to deal with. Annually it claims thousands of people and its ravages are not confined to any section or to any class. Naturally its spread is greatest among the poorer classes, for they lack the nourishing food, the sanitary surroundings and the medical facilities with which to combat it. These things are provided through the medium of the little seal which the Red Cross asks you to put upon your Christmas package. Some generous people put a number of the seals on each package. They carry the spirit of the Christmas tide. They are a gentle reminder that the gift is a yuletide one and they carry good wishes from the giver to the recipient. A dollar will buy a lot of the seals and a dollar so spent will do a lot of good.

All over the country Christmas seal campaigns are opening. The seals can be bought around postoffices and in many stores and every time a purchase of them is made a good deed is accomplished.

In making your Christmas pur-

chases keep the Red Cross seals in mind and include them in the list. Better still, buy the seals first, so they really are the most important purchase you can make.

The first purchaser of the 1919 issue of Red Cross Christmas seals is the Prince of Wales. He bought the seals while in Washington from five year old Adrienne Mayer, "the littlest modern health crusader," recently decorated by General Pershing for attaining a perfect score in the children's health crusade against disease.

The royal visitor was not too busy in his crowded schedule of entertainment and sightseeing to endorse the fight against tuberculosis which the Red Cross Christmas seal represents.

"Startling facts on public health conditions were shown by the medical examination of millions of men during the war," the Prince said. "These facts have demonstrated clearly the necessity of attacking harder than ever such enemies as tuberculosis. I am sure this world-wide work has the approval of every thoughtful person. The seals really represent the ounce of prevention. I wish the campaign all success."

The Prince promised to use the seals on his personal letters.

## Voice of the People

## A WORD OF APPRECIATION

We desire to give public expression of our thanks and appreciation to the patriotic hospitable citizens of Albany and Decatur who last night volunteered to take to their homes members of the Alabama Boys Industrial school Band. Thirty four of these boys came here upon our invitation to make music for our parade and ceremony. We tried all public places in both towns to secure accommodations for the boys without success and at last were forced to appeal to the hospitality and patriotism of citizens whose prompt response was both refreshing and encouraging. These boys are the wards of the state, many of them orphans. They are being educated and trained for future usefulness. Their manly conduct and courteous demeanor last night was in striking contrast to the shameful, disgraceful conduct of many of our local boys, who, backed by several men who ought to be ashamed of themselves, endeavored to break up our consolidation meeting on Second avenue. The men who encouraged these boys in their moblike demonstrations should be warned that the sowing such seeds as this produces a crop—mobs, anarchists, Bolsheviks and criminals.

A. G. PATTERSON,  
For Consolidation  
Campaign Committee.

## 3-Piece Orchestra For the Masonic

Manager Cagle of the Masonic has employed a three-piece orchestra, which will play at the theatre regularly. The musicians made their first appearance last night, and made a most favorable impression.

## OH! MY NICE HAIR IS ALL FALLING OUT

Hurry! Let "Danderine" save your hair and double its beauty.

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair grow long, thick and strong and become soft, glossy and abundant. —Advertisement.

## EXPLAINS BIRD'S-EYE MAPLE

Fantastic Growth Comes Due to the Presence of Buds That Grow Beneath the Bark.

The bird's-eye maple is produced by casual or abnormal buds which have their origin under the bark of the trunk. The first buds of that kind may develop when the tree is quite small. They are rarely able to force their way through the bark and become branches, but they live many years just under the bark, growing in length as the trunk increases in size, but seldom appearing on the outside of the bark. If one bud dies another will rise near it and continue the irritation which produces the fantastic growth known as the bird's eye.

One of the favorite theories regarding bird's-eye has been that sapsuckers, by pecking through the bark of young maples, make scars which produce this figure during the succeeding years. Bird-pecked hickory often has been cited as an analogous case, but the effect in the hickory is opposite of the bird's eye in maple. The wood is discolored and unsightly. Some have attributed it to the action of frost, but no such connection exists, it is said.

## Noble Daughter of Italy.

Like the wing of a dove across a red battlefield of horrid curses, the form of Vittoria Colonna, noble Roman lady, glides across the terrible horizon of Lucretia Borgia. The two, Lucretia and Vittoria, had the same environment of civic and social life in Rome. The one drank lust and corruption; the other pure drops of heaven. It was the era of Michael Angelo. The rising young genius in Rome was painting the portrait of Vittoria Colonna. The portrait is like a nun at vespers. Vittoria Colonna was of the distinguished Roman family of great antiquity, the "Colonna." She was a woman of brilliant parts, a poet and scholar. Married at nineteen to the duke of Arato, after his death on the battlefield in the Franco-Italian wars she remained a widow the rest of her life. Her poems, "Rime Spirituali," have great charm. It was during her stay in Rome that she formed the passionate attachment to Michael Angelo that inspired many of the great sculptor's sonnets and verses. She died at the convent of San Silvestro, her soul like a silver dove winging away from the turbulent sixteenth century. —Chicago Journal.

## Historic Night Brings End to the Consolidation Fight

(Continued from Page 1.)

cheerfully enthusiastically. In the auditorium, and on the stage were many prominent women of the city, wearing the anti-consolidation badges.

All of the speakers pleaded for defeat of the merger. Preceding the meeting at the Masonic just after dusk the opponents of the merger staged a parade from the shop gates, led by a local band and Mayor A. C. Dillehay. In the line of march were many automobiles, as well as pedestrians.

## USES OF ASPIRIN

Bayer, who introduced Aspirin 18 years ago, give Advice.

Aspirin created a sensation when introduced by Bayer over eighteen years ago. Physicians at once proved its wonderful efficiency in the relief of pain. The genuine, world-famous Aspirin, in "Bayer Tablets of Aspirin," is safely taken by millions for Colds, Headache, Rheumatism, Neuralgia, Aching Joints, Neuritis, and Pain generally.

Be sure the "Bayer Cross," which is the mark of true "Bayer Tablets of Aspirin," is on each genuine package and each genuine tablet.

Boxes of 12 tablets cost but a few cents, and contain proper directions. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monocetide-acidester of Salicylicacid. —Advertisement.

## DAILY WANT COLUMN

Cash Positively Must Accompany All Want Ads. No Exceptions Made.

**WHEN ANSWERING WANT ADS**

## Morgan-Limestone Bridge

There is not a man who will stop to reason with himself who can doubt that the Morgan-Limestone bridge is an assured fact. Do you ever stop to consider what this means in property values?

Did you ever know of anyone making the maximum profit by waiting until a project was completed?

Would it not be a wise thing to do to purchase a small tract of land near the site of this magnificent bridge? Opportunity and action go hand in hand. Friday, November 28th will long be remembered as the turning point in the fortunes of those who have visions and initiative.

There is no investment on earth as good as the earth and no part of the earth is richer or has greater possibilities for large returns than an investment in one or more of the small farms of the H. H. Hitt and F. W. Webster subdivision to be sold for the high dollar Friday, Nov. 28th, 1919, at 10:30 a. m. by Rice's Auction Land company.

Will you be one of those whose vision is clear and who, when he sees an opportunity, has initiative to act upon it? Or will you be one of those whose vision is clouded by the pessimist and knocker who has never made a success himself and doesn't want anyone else to succeed? Whet up your appetite, throw away your smoked glasses and go to this free barbecue and land sale and then be your own judge. —Advertisement. 24-3t

## THE BEAUTIFUL ELOQUENCE OF TRUTH

In Open Court, 55 People Swear as to Their Experience With the Great Remedy, Sul-Ferro-Sol. Many Cures of Cases of Rheumatism, Pellagra, Eczema, Tetters, Etc., Proven.

Sworn to tell the truth, the whole truth, and nothing but the truth, 55 witnesses recently testified in the United States Court, Western District of South Carolina, that they were benefited or cured of various blood troubles through the use of Sul-Ferro-Sol. Sul-Ferro-Sol and Sul-Ferro-Sol only—just think this over.

Of this assembly, some had suffered six months, while others had suffered for twenty years. But they all swore that Sul-Ferro-Sol had done exactly as claimed.

And here is our point of appeal: Use a blood purifier of proven efficiency.

Sul-Ferro-Sol comes from a natural deposit of iron, sulphur and potash recently found in Mississippi. It is nothing more than a wonderful mineral water.

Most highly recommended for rheumatism, eczema, tetters, facial blemishes, pellagra, and all other diseases characterized by impure blood.

At all drug stores, everywhere. Liberal bottles for one dollar.

Interesting booklet, "Road to Health," upon request. The Sul-Ferro-Sol Co., Montgomery, Alabama. Desk B.

## DOINGS OF THE VAN LOONS

## Big Free Barbecue

We all remember the thrills and joy of an announcement of a barbecue given away back yonder in the good old days of our youth when the axe and the plow were laid aside and youth and age mingled together for a day, free from all the cares and worries of labor and business.

The occasion might have been that of a political rally, a church gathering or a log rolling. We went and enjoyed ourselves just the same. Such a day will be Nov. 28th on the H. H. Hitt and F. W. Webster farms just across the river from Decatur and Albany when Rice's Auction Land Co. will serve absolutely free a fine barbecue, music and other entertainment.

The occasion will be the selling of the H. H. Hitt and F. W. Webster farms subdivided into small tracts where anyone can procure a small farm at his own price, and on such reasonable terms that they can pay for it like rent.

Another feature of this sale is the location. When the Morgan-Limestone bridge is built money can hardly buy this land.

Everyone attending this sale will be passed over the ferries free and everyone will have a chance to draw a \$25.00 cash prize.

No one should miss this barbecue and sale.—Advertisement. 24-31.

## AMUSEMENTS

### "WHAT'S THE IDEA" AT THE MASONIC NOV. 28

There are no doubt many theatre-goers in this city who will recall with delight, the clever antics and laughable parodies of those well known comedians Rice and Cady, who F. V. Peterson will present in their new musical comedy "What's The Idea" at the Masonic theatre Nov. 28, the occasion marking their return to musical comedy after five years of headlining the big time vaudeville circuits from coast to coast.

They will be remembered for their excellent work as the stars of "Fiddle Dee Dee" in which they were seen for three seasons, also as co-stars of Barney Bernard in the "Two Islands" during the run of the piece at the Circle Theatre in New York, after which the alluring salary and long time contracts led them into vaudeville.

"What's The Idea" is a comedy with music written by Charley Rice, with lyrics by Earl Derrfuss and music by Walter L. Rosemont who were responsible for the score of the "Bride Shop" one of the big hits of last season; Its story is well-constructed and coherent, with plot enough to make it interesting, and is brimful of bright lines and ludicrous situations, telling the story of a young girl who at the death of her father inherits large sugar interests in Mexico.

### Stork Welcomed in Holland.

A stork is treated with great respect in Holland. The house selected by the stork for a resting place is considered fortunate, and special facilities are provided by the householders to enable it to build a nest comfortably. At The Hague many of these birds are maintained at public expense.

### Just Got Over a Cold?

Look out for kidney troubles and backache. Colds overtax the kidneys and often leave them weak. For weak kidneys—well, read what an Albany man says:

J. W. Ezell, Prop. grocery, 1801 4th Ave., says: "Some years ago my kidneys became affected. I believe from a cold and sharp pains often took me in the small of my back. When I stopped or lifted anything, I would get sudden twinges through my kidneys and I couldn't rest comfortably at night. Mornings I arose refreshed and was usually tired. I had headaches, dizzy spells and spots continually passed before my eyes. I learned of Doan's Kidney Pills and got a box and used them as directed. They relieved me immediately. Two boxes entirely cured me of this trouble."

Above statement given April 28, 1911, and on February 28, 1918, Mr. Ezell, says: "I have had no return of kidney trouble since taking Doan's Kidney Pills some years ago and I cheerfully confirm the statement I gave Doan's at that time." Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Advertisement.

## Lilly-faced Listless Girls

### OCCUPATION WITHOUT A NAME

Dictionary Has No Word to Describe Just What Lawyer's Work Can Be Called.

One thing about his profession that probably not even a lawyer can explain is the singular neglect which the lawyer's trade suffers at the hands of the dictionary. Apparently the act of performing the professional duties of a lawyer has never been considered sufficiently worthy to deserve a name of its own, for there isn't any polite name for it in the English language. No other learned profession has been so slighted.

What a minister does when he attends to business is called ministering. What a doctor does when he prescribes a pill is called doctoring. The engineer goes in for engineering and the soldier for soldiering, and even the newest of all professional men engages in what we are pleased to call proffering. Not so the lawyer. Paraphrasing, he is not there. Lawyer-never! There's no such word. Whatever his business is, the dictionary evidently will have nothing to do with it—which, if not actually an indictment, is at least evidence strongly circumstantial.—New York Times.

**Man vs. Shellfish.**  
If a human being possessed strength as great in proportion to his size as that of the shellfish the average man would be able to lift the enormous weight of 2,078,000 pounds by pulling in the same degree as a limpet. And if the man pulled in the same degree as the cockle he would sustain a weight of no less than 3,000,000 pounds.

**Life.**  
Life is beautiful, and it should be lived in beauty. It has, and must have its shadows, to be sure, but there is a beauty in the shadow as well as in the light and glimmer of the sun. Sometimes there are sorrows that are good for us, because they clear our hearts of selfishness and teach us to sympathize with our fellow human beings. Grief has made many a heart gentle that was not so before.

## SUPPOSE EARTH SHOULD SKID

Direful Possibility Pointed Out by Writer Evidently of Pessimistic Turn of Mind.

Those fellows who are pumping all the gas out of the earth, and digging the coal and the iron and gold and silver out of it, and sucking all the oil out of it, better look out what they're doing.

Supposing the "scientists" say that it doesn't make any difference. What do they know about it? They don't know any more about it than we do, and that isn't very much. These smart Alices that tell us one thing today and another thing tomorrow are not to be depended on. They change their minds too often, and the reason they do so is that they are simply guessing all the time.

Now it stands to reason that if we take the whole inside out of the earth it is bound to be a whole lot lighter than it was before. Any kind of an idiot knows that. We take out the inside and we never put anything back in its place. If we played fair, like trade rats, it wouldn't be so bad; but we don't play fair.

We take out coal and burn it up in smoke; the same way with oil; the gas blows away in the air.

Now, by ginger, to our way of thinking, the next thing we know this old ball is going to skid. It is bound to do so, being relieved of all its ballast. It is going to skid, and then something is going to happen to everybody who is thinking about something else and hasn't got a good hold on a tree or something.

Suppose you are walking along the road, or sitting carelessly in a chair, and the earth skids like that. Why, dear man, you will fly off like a man standing up on a spring wagon when the horse gets scared.

We have no desire unnecessarily to alarm anybody, but this thing of taking everything out of the inside of the earth but the acoustics ought to be looked into.—Los Angeles Times.

### ANNUAL BAZAAR

### A GET-TOGETHER

#### TURKEY DINNER

Rev. and Mrs. W. P. McGlawn entertained charmingly at a Turkey dinner Friday evening in compliment to the Board of Stewards of the Central M. E. church.

To begin with, this is a compliment extended to the Executive Board of the Central M. E. church each year by the Rev. and Mrs. W. P. McGlawn, who delight in the social relation of pastor and church.

A more attractive table for such an event could hardly be seen, for loving hands had decorated it with the harvest season's gifts. The banquet board was spread with snowy linen, and centered by floral basket of luscious fruit, rich bunches of grapes twined about the fancy handle, completely hiding it. This central ornament was surrounded by yellow hooded candles and at either end of the board was a replica of the central ornament, at intervals were placed many branched candelabra. A scheme of yellow and white was adhered to and best emphasized in the dainty gowns worn by the young ladies of the house, Misses Judith Thigpen, Josephine Senter and Bess Brindley, and ladies assisting, Mrs. J. L. Gunter and Mrs. W. R. Smith. A many course Turkey dinner was served.

Cards for the Board of Stewards, were Dr. J. L. Gunter, chairman and Toast master, W. A. Brittain, J. D. Bush, Dr. J. W. Crow, J. W. Cunningham, W. H. Day, S. J. Forline, S. R. Garrison, A. L. Jolley, E. W. McCleskey, Dr. L. A. Neill, A. G. Patterson, C. L. Peck, J. L. Johnson, J. H. Putnam, I. K. Rogers, W. R. Smith, F. E. Taylor, Judge L. P. Troup, E. H. Turner, S. M. Winton. The guests were Rev. W. E. Morris, Presiding Elder of Decatur District, J. P. Lovin, Supt. Sunday school, Dr. R. M. McGlathery, assistant superintendent; Prof. R. W. Cowart, Lay Leader; H. L. Spencer.

Over coffee toasts and responses were made by Dr. J. L. Gunter, presiding in his usual happy style, bringing out the best in every one. Plans were made and the conference year outlook seems very promising. The meeting was pre-eminently a success, optimism was the feature of every address.

W. R. Shelton is in Birmingham today attending the convention of Southern Publishers that opened a conference at the Tutwiler this morning for a two days discussion on paper shortage.

Mr. and Mrs. R. L. Wood, Claxson Bodrey and family spent Sunday in Lawrence county.

Mrs. J. H. Donnell has returned from Athens where she was the guest for a week of Mrs. C. A. Frost.

John Henry Peebles, of Mooresville, passed through here today en route to Birmingham to attend the Shriner's meeting.

### THANKSGIVING DANCE AT COLONIAL CLUB

The local social contingent, augmented by many visitors, will attend a dance at the Colonial club on Thanksgiving evening that promises to be a most enjoyable event. Music will be furnished by Malone's orchestra, and the dancing will begin at 10:30 o'clock and continue until 2 a. m.

### FIRST DISTRICT OF A. F. W. C. 100 IN FEDERATION WORK

All the flutter, preparation and anticipation of the Huntsville Biennial of the A. F. W. C. is over. The Federation secretaries returned full of enthusiasm to report to their clubs the most excellent work in which the Federation is engaged. So, cause and effect, circle within circle, till, the very last effect can be immediately swung back to the source—cooperation of Alabama's womanhood, determined women, who have decided that the State's place on the ladder must be of higher and stronger national importance. Naturally, North Alabama, or the ten counties that make the first district of the A. F. W. C., feels elated over being one hundred per cent, having secured the largest number of new clubs, secured the most subscription to the official organ of the organization, for which Mrs. L. A. Neill, vice president of the first district, was presented the gavel, in a short address, by Mrs. James Hagan the retiring head of the Federation. This seems to have been a banner year for the Federation.

Mrs. James Hagan has done more to make the Federation the organization understood over the State than perhaps any previous official. She has lent her strong personality to every branch of the work, visiting each district and giving personal supervision. Mrs. Hagan was elected to the office of General Secretary of the Association. Mrs. L. A. Neill was elected State Recording Secretary.

### EMONS-THRASHER

Miss Minnie Thrasher and Mr. Carl Emons were quietly married yesterday afternoon at the home of the bride's parents, Mr. and Mrs. D. W. Thrasher, in Austinville, Rev. Wm. Wm. Spearman officiating. The couple left at noon for Birmingham, where the groom is engaged in business.

Miss Mary Grace Saunders visited her parents, Mr. and Mrs. R. E. Saunders over Sunday.

Mrs. D. G. Hart of Nashville will arrive this week to visit her sister, Mrs. J. H. Donnell.

### PERSONALS

A. L. Harvey, Charles Rountree, John Garrison and C. L. Saunders are among the local Shriners attending the ceremonial session in Birmingham today.

J. F. Herring of Hartselle was the over Sunday guest of his sister, Mrs. C. W. Williams.

A. B. Codrington, advertising manager of The Daily, is ill today.

T. D. Wilkinson left yesterday for Texas to visit his brother whom he hasn't seen for many years.

**Truth Never Dull.**  
You say: "Truth is so dull." I beg your pardon. Truth is the only thing that is never dull, and the only means by which we can escape from dullness. Why? Just consider. In all art, in all science, in all literature, it is the observation of delicate nuances that gives interest, that delivers from conventionality, that insures progress. The conventional person says the sky is blue, and probably paints it so. The truthful person sees that the sky is gray, pink, yellow, inky-black, pale-green, and, no doubt, blue at certain times, but not always even then of the same unbroken shade of blue. He paints or describes it as he sees it; he is an artist. . . . Just so it is in our observation of character. How careless, how inartistic, how unscientific we are in our study of, in the judgments we pass upon, in the language which we employ in regard to, one another, and how great would be our intellectual as well as moral gain, how far more attractive our conversation, if we tried to cure ourselves.—Elizabeth Wordsworth.

**SIR WALTER, 77, DECIDES HE TOO YOUNG FOR MARRIAGE**  
(International News Service.)  
LONDON, Nov. 25.—The ex-Lord Mayor of London, Sir Walter, 77, who has just received his first marriage proposal, "Dear Sir—Can I be your wife, please, because I have no one to look after me? My name is—I live at Faringdon."  
But Sir Walter has decided he's too young yet.

## Carlisle Robs Game; Makes Good Haul

(International News Service.)  
DENVER, Col., Nov. 25.—A trio of masked robbers believed to have been led by W. L. Carlisle, fugitive Wyoming train robber, early today held up a gambling game and robbed the participants of \$6,000. Several of the victims say they recognized the leader as Carlisle.

### DRINK ONLY WHEN THIRSTY

Physician Decries Having Any Set Time for the Taking of Liquid into the System.

No rules for water drinking can be laid down, but the best guide is the thirst of the individual, according to Dr. John C. Hemmeter of Baltimore, in an address at a meeting of the American Therapeutic association.

Our bodies have a reservoir in which much water is stored; this is in the tissues underlying the skin and in the muscles. The blood and lymph contain about three and a half quarts of water. In the course of a day about two quarts of gastric juice, from one and a half to two quarts of saliva, one and a half quarts of pancreatic juice, and intestinal juices in quantities that have been estimated variously at between two and eight quarts, are secreted. Thus a man secretes altogether about eight quarts of digestive juices every day; yet he has only from three to four quarts of blood and lymph.

The mystery of whence the water comes and whither it goes is solved when we learn that the reservoirs under the skin supply it and reabsorb it. When we are thirsty it means that the supply in the reservoirs is running low. Perspiration disposes of much of this water, and by evaporation keeps the body cool. Physical work or exercise produces much heat and if a man who performs it cannot perspire his temperature goes up rapidly.

### Vision Caused by "Cohoba."

Dr. W. E. Safford, of the government plant bureau, recently identified the mimosa-like tree, which grows in Haiti, Porto Rico and other islands of the Antilles, as the producer of a queer powdered drug called "cohoba," which the natives used when Columbus first arrived at the island of Haiti. The seeds of this tree are yielded in pods, which are roasted and ground to powder, which is sometimes mixed with lime from calcined snail shells.

The tribal wizards, or priests, while under the influence of "cohoba," were accustomed to hold communications with unseen powers, and their utterances were construed as prophecies and revelations of hidden things. The powder was used as a snuff, and was inhaled through a forked wooden tube. The forks were inserted in the nostrils and the lower end of the tube buried in a little heap of the snuff, which was held on a tray of carved wood. Sometimes large snail shells were used as snuff boxes.

The natives used the snuff on ceremonial occasions. It produced a sort of hypnotic state, with visions supposed to be supernatural. The chemical properties of the drugs are still unknown so that its intoxicating principle remains a mystery.

### Insane Actor Earned Plaudits.

In 1856 the Laura Keane theater, in New York city, popularly known as Laura Keane's Varieties, was opened. It remained under the management of Laura Keane until 1863. As its name implies, a variety of plays and of actors were staged here. Among the latter were Joe Jefferson, the elder Sothorn, Matilda Heron and Mrs. D. P. Bowers. "Humpty Dumpty" produced there in pantomime, probably had the longest run of any performance of its day. The Automobile Blue Book tells a pathetic tale of George Fox in connection with his last appearance on the stage. He is said to have become insane from the poison in the powder which he had to use in whitening his face and head when making up for his part as a clown. But so much had this work become a part of his life that after being made up by an assistant he would be placed upon the stage and from mere force of habit would play his part just as well, if not better, than before his mind had become affected.

## RAILWAY CHAIRMEN STILL IN SESSION

(International News Service.)  
CLEVELAND, Nov. 25.—Five hundred general chairmen, representing close to 200,000 members of the Big Four brotherhoods, today continued their consideration of the overtime proposals made by the railway administration. Answer to 20 questions proposed by the delegates to the railroad administration were to be heard today as the session resumed and belief was expressed that a decision would be reached by night. This will pave the way for consideration of the Plumb plan.

### Court Upholds Right of Wife to Make Evidence

BARONET'S WIFE BESMIRCHES  
GOOD NAME TO FREE HER-  
SELF FROM UNHAPPY  
MARRIAGE.

(International News Service.)

LONDON, Nov. 25.—The right of a wife to "make" evidence which will warrant granting a divorce in a land where the only grounds for annulling marriage are infidelity and cruelty has been upheld by a British court.

Although the judge expressed his dislike for cases based on a nameless correspondent, the court granted the divorce decree.

"I have taken a course which I know my friends will all condemn, and I have gone off with another man," Lady Iris Mary Lawson wrote to her husband, Sir Digby Lawson, baronet. "However foolish this rash act may appear, I can at least rejoice that it will end an intolerable life for both of us."

"It was the desire to end this life which compelled me to take this step."

The letter, read in court, enclosed a hotel bill which showed that a "Mr. and Mrs. C. Lawson" had stopped at the Grosvenor Hotel. All efforts by detectives failed to reveal who this man was or to show that in the ordinary accepted meaning of the term, there was any correspondent of the "home breaking" type in the case anywhere. Legally, cause for divorce was proved.

The fact that a woman of prominence, the wife of a baronet, was forced to publicly besmire her good name to free herself from marriage that was a failure has aroused a furor of comment and opinion of the divorce laws of England.

### NEW ENGLISH DICTIONARY DEFINES AMERICAN SLANG

(International News Service.)

LONDON, Nov. 25.—Cassell's new English dictionary contains a large number of words that came into use during the war, many of them borrowed from American slang. A few of the innovations are:

Bus—an aeroplane.  
Cold feet—to be in a funk.  
Dud—no good.  
Guy—a toff.  
Highbrow—a highly superior person.  
Eyewash—humbug.  
No flies on one—no fool.  
Jazz—a noisy and boisterous dance in ragtime.  
Movies—a cinematographic exhibition.  
Umpteen—any number.  
For the benefit of Americans "old bean" is defined as "old fellow"; "conchy" as a conscientious objector; "top hole" as the very best, and "washout" as a failure of puddle.

### Civil War Veteran Gets Back Badge Lost on Battlefield

(International News Service.)

LANSING, Mich., Nov. 25.—Daniel J. Haggerty, of Chicago, veteran of the Civil War, has just received a silver identification badge which he lost during the Civil War on a Virginia battlefield. Haggerty got back his badge through the efforts of Colonel John S. Bersey, adjutant-general for Michigan, who some weeks ago received a letter from E. R. Holbrook, of Fairfax, Va., stating that Holbrook had found an identification badge of "pure silver." On its face it bore the legend:

"Dan J. Haggerty, Co. D, First Mich. Infantry; 1st Brig.; 1st Div.; 5th Corps."

On the other side was: "Enlisted Detroit, Mich., July 13, 1861."

Records of the adjutant-general's office showed that a Dan Haggerty had moved to Chicago ten years after the close of the war. Nine days after the adjutant-general had written Haggerty replied that he had been a soldier of the old First Michigan Volunteers, First Brigade, First Division, and that he had enlisted in Detroit in 1861.

The badge was sent to him.

### MEMORIAL DAY TO BE OBSERVED

Alabama Memorial Commission Day will be celebrated at the Decatur public schools Wednesday. The program follows:

Scripture Reading—Rev. J. B. Talant.  
Prayer—Rev. Wm. N. Sholl.  
Song—"Alabama."

"Over There."  
"Goodbye France."  
Extracts from Pres. Wilson's New York address—S. T. Abel.  
"I am an American"—Edward Morris.  
"We Shall Remember Them"—Zana Lovin.  
"The Brave at Home"—Elizabeth Houston.  
Our Part in the Memorial—Hon. E. W. Godbey.  
Contributions.  
"America."  
Benediction—Rev. G. M. Davenport.

### GERMANS TO PAY FOR SHIPS SUNK

COMMISSION ARRIVES AT PARIS  
TO HEAR TERMS OF THE  
ALLIES.

LONDON, Nov. 25.—The German ratification commission has arrived in Berlin from Paris to receive instructions from the government relating to the signing of that section of the new protocol covering further German reparations for the sinking of the German fleet at Scapa Flow, said an official statement received from Berlin today via the wireless press. The allied delegates agreed in Paris on Nov. 1 to compel Germany to turn over a number of light cruisers and destroyers now in German waters and also deliver 400,000 tons of naval material to replace the warships sunk by their German crews at Scapa Flow, where they were interned.

### Water Power Bill Soon Taken Up

(International News Service.)

WASHINGTON, Nov. 25.—Consideration of the water power legislation before the senate will be taken up, following the disposition of railroad legislation, Senator Jones of Washington, announced today.

The water power bill provides for the establishment of a commission to issue licenses for the erection of water power projects. It is the same proposition that has met the opposition of conservationists for many years past.

### BEGY'S MUSTARINE ASTONISHES ALL

Money Back, Says Druggists, if  
Begy's Mustarine Isn't by Far  
the Best Mustard Preparation.

A BIG YELLOW BOX FOR 30c  
Ask your druggist to show you a  
box of Begy's Mustarine; he and  
every other druggist in America is  
authorized to return your money if it  
does not do as advertised.

Doctors have prescribed it for 19  
years. It's the original, and best im-  
provement on the old-fashioned Must-  
ard Plaster, and quickly stops rheu-  
matic pains, neuritis, neuralgia and  
lumbago, and instantly relieves ton-  
sillitis, pleurisy and bronchitis.

Just rub it on, and over night away  
goes sore throat, coughs and chest  
colds.

For sprains, swellings and all aches  
and pains, it has no equal, while for  
sore feet, nothing yet discovered can  
compare with it. It's the quickest pain  
killer on earth. Be sure it's Begy's  
always in the yellow box.

### INDIGESTION!

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin.

The pepsin, the most effective of all the digestants, helps to digest the food and the laxative properties act on the bowels. It aids the digestive organs to work naturally so that in time medicines of all kinds can be dispensed with.

You can buy a bottle of Dr. Caldwell's Syrup Pepsin at any drug store for 50c and \$1, the latter sufficient to enable an entire family to enjoy food for months.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

# A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone" Man Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to starve your liver without stirring you up inside, and can not squalitate.

Don't take calomel! It cannot be trusted any more than a leopard or a wild-eat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.—Advertisement.

## The Joy of Motherhood explains why—MOTHER'S FRIEND

Is a veritable balm for the nerves; an intensely penetrating application that softens the muscles, relaxes nervous tension of the delicate organism involved in maternity, and prepares the way for an easier, quicker and more practical delivery. Such reflects so markedly upon the unborn child. Mother's Friend is used externally.

At all Druggists.  
Special Booklet on Motherhood and Baby free. Bradfield Regulator Co., Dept. F-8, Atlanta, Ga.

## CHEAPEST SUIT IN BERLIN IS \$25

WORKERS FIND IT ALMOST IMPOSSIBLE TO LIVE IN LOWEST FASHION.

By a Special Correspondent of the International News Service and London Daily Express.

BERLIN, Nov. 21.—The workingman of Germany is faced with many problems. The first and most important is the problem of existence.

Every necessity of life is rationed; the cost of everything has increased to an incredible extent, wages have not kept pace with the growth of prices. In reading this article it must be borne in mind that the mark (100 pfennigs) in Germany is of the equivalent value of twenty-five cents.

Yesterday, armed with food cards, I spent three hours in purchasing three articles—meat, butter and bread. The time was occupied in finding the shops which really had anything for sale and in standing in queues. The choice this week at the butcher's lies between tinned meat and sausage. Not the palatable, well-made sausage of the better class restaurant, but a coarse, dark composition with a peculiarly distinctive aroma. The card allowance for one week is half a pound. In weeks when there is fresh meat this weight includes bone.

Fairly good bread, dark in color and slightly sour in taste, is procurable to the weight of four pounds a week. The butter ration is laughable—thirty grammes about sufficient for one breakfast. Margarine is obtainable to the extent of seventy grammes; it is unpalatable, even for the least fastidious, and can only be used for cooking.

My bills totalled 4 marks 56 pfennigs—2 marks 80 for meat, 1 mark 14 for bread, and 42 pfennigs for butter.

A very fair average monthly wage for a workingman or bank clerk is 140 marks. Let us suppose he has a wife and two children and endeavors to see how he can manage.

The State has first claim on his earnings, and mulets him in fifteen marks monthly for taxes. Rent is the next consideration. The poorest imaginable dwelling of two rooms and a kitchen will cost him sixty marks. Taking his weekly expenditure on rationed articles at 4 marks 56 for each person, his monthly outlay will be 72 marks 96. Thus rent, taxes and rations total \$37, leaving him about \$73 on which to support his family.

We have seen how far the official ration goes; everything beyond that has to be bought at fantastic prices from persons who have supplies, obtained from a mysterious source.

If he is so reckless as to indulge in two cigarettes a day, another eighteen cents vanishes into smoke; should he drink a couple of glasses of beer his exchequer is depleted by another quarter.

Should the man and his family be so improvident as to require clothes, bankruptcy stares them in the face. A suit of shoddy costs at the lowest estimate \$52; a woman's dress of similar material runs into about the same price. Boots, wooden soled and with "ersatz" leather uppers cost \$5.50 for a child of eight and \$10 for an adult.

It will be seen that even by restricting himself to the bare necessities the workingman is hard put to it to make both ends meet. Nothing has been reckoned for fares to his work, newspapers or laundry. Soap is a luxury. Gas for lighting and cooking costs at least fifteen marks a month.

The plight of the bank clerk is even more pitiable. His mode of living and his clothing naturally exact greater extravagance. A linen collar costs 6 marks 50; the washing of one costs 1 mark 20.

## THREE MEDICINES COMBINED IN ONE

Dr. Hitchcock's Liver, Kidney & Blood Powders Cleanses the Liver and Regulates the Kidneys, Thereby Purifying the Blood.

THE TRIPOD OF HEALTH

A Vegetable Compound. Will Not Make You Sick. Eat Anything You Like. Keeps Your Tripod of Health in Balance.

The human system is like an automobile—if one part gets out of fix the whole machine stops. Especially is this true of the liver, kidneys and blood, because what upsets one will also upset the other two.

When you get bilious, tongue is coated, have headaches and a touch of rheumatism, it is not sufficient to simply take something for the liver—you are only treating one-third of your trouble—what you need is Dr. Hitchcock's Liver, Kidney & Blood Powders that will cleanse the liver, stimulate the kidneys to health action and thereby purify the blood.

25 cents will buy a large tin box at your druggist. Take a level teaspoonful tonight and it will straighten you out by morning. Satisfactory results assured, or your money refunded.

## LOCAL DELEGATES WRITE OF Y MEET

W. R. McCluskey, who with Secretary Nollau are in Detroit at the Y. M. C. A. convention, writes enthusiastically of the plans as discussed for the Y, and asks that the men be kept interested in the local Y. M. C. A. His letter, addressed to J. E. Blair, is as follows:

"Detroit, Mich., Nov. 20, 1919  
Mr. J. E. Blair, Albany, Ala.

Dear Sir and friends:  
Arrived in Detroit yesterday about 9 p. m. It was snowing some when we arrived, but the sky is clear now and the weather cold. Every thing looks good for the great international Y. M. C. A. convention. I wish it was possible for some of the men in Albany, who have been so opposed to the progress of the Y could have been present at the convention. Some of the leading men of the world are here and exceedingly anxious to see it established everywhere and its great plans put into execution. I wish I had time to write you more but time is precious here. Secretary Nollau and myself, for lack of room else where have been assigned to the Steam Ship, "City of Detroit". It is a regular palace. The state rooms are simply beautiful. Enclosed find clipping from the Detroit News, read it and say all you can for the Young Men's Christian Association in Albany.

Hoping that everything is going all right in Albany and Decatur, I am yours, as ever,  
Your friend and brother,  
W. R. MCCLUSKEY.

Tree Trunks Made Cisterns.  
The gigantic baobab tree of central Africa, the trunk of which sometimes attains a diameter of forty feet, often serves as a natural cistern, retaining rain-water in large quantities in a cavity formed at the top of the broad trunk. Taking the hint thus afforded by nature, the Arabs artificially hollow out the huge baobabs, and fill them with water during the prevalence of rains, as a provision against the dry season. These cisterns are in many cases twenty feet in height and eight or ten feet in diameter.

## "JAZZ" WATER WHEELS WILL SCARE BEAVERS

DENVER, Nov. 21.—The use of "jazz water wheels" is being urged by State Game and Fish Commissioner R. G. Parvin in replying to requests of ranchers who are seeking permission to shoot beavers that are causing much damage to farm property in various sections of the State.

Parvin declares that water wheels with tinkling bells do excellent service as "scarecrows" and will keep the beavers away.

The skins of the amphibious rodents are very valuable at this season of the year, and Parvin thinks the desire on the part of many for permission to kill the beavers is attributable to this fact.

## Happy After 20 Years

"I must write and tell you I am getting along fine. For 20 years, that is over half of my life, I have spent in poor health and suffering from severe gas in stomach and indigestion. Mayr's Wonderful Remedy has entirely restored me. I also know of several others who have taken it for the same trouble and are now well again." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by S. M. Thompson, Albany and Galt Bros. Co., Decatur and Druggists everywhere.—Advertisement.

IF A FIRE IN THE KITCHEN BREAKS OUT  
Call the fire department at once and look after the safety of your family. There will be some damage of course, even if the firemen extinguish the flames at once. And that damage will surely be many times the cost of insuring your whole house. Moral: Pay us for insurance rather than for new things.

## TO THE PUBLIC

The Government released three cars of coal to us on yesterday and require that not more than a ton be delivered to large families and one-half ton to small families. We will conform to governmental regulation. We have not sufficient teams to make deliveries and will ask those who must have coal at once to look after the hauling.

ALBANY COAL & GRAIN CO.

# Hauger Suits and O'coats \$20 \$27.50 \$30

---The Fall Choice of Thousands of Men Who Want Good, Stylish, Wool Clothes At Money-Saving, Low Prices

HAUGER CLOTHES indisputably surpass all others from a standpoint of downright good value for your money. The great "merchandising force" given us through buying for all of our 37 stores at one time, enables us to give you the kind of clothes you want at the remarkable saving of just about one-third.

Compare the good all-wool fabrics, fine tailoring and style features in Hauger clothes with others even higher priced and you will quickly see that the ordinary stores—dependent upon less favorable methods of merchandising—can not even approach Hauger value-giving.

Get the Style and Fabric That Pleases You at a Saving of Just About One-Third—At Hauger's
